

FLIGHT 2024

MADRAS INSTITUTE OF TECHNOLOGY DEPARTMENT OF AEROSPACE ENGINEERING ASSOCIATION OF AERONAUTICAL ENGINEERS

PAPER PLANE CHALLENGE

MARCH 16

Description:

Prepare for a thrilling paper plane-making event where participants craft their own paper planes and compete in a friendly challenge to see whose creation can achieve the greatest distance. This event is perfect for those who enjoy a hands-on challenge, creativity, and a bit of friendly competition.

1. Plane Crafting:

- Participants will be provided with materials to design and construct their paper planes.
- Creativity is encouraged in the design process, but planes must be made solely from the provided materials.

2. Flight Distance Challenge:

- Once the paper planes are crafted, participants will take turns launching their creations to see how far they can travel.
- The flight distance will be measured from the launch point to the landing spot.

This paper plane challenge is not a competition; it's an opportunity for participants to showcase their ingenuity, enjoy some friendly rivalry, and experience the joy of seeing their creations take flight.

Join us for a day of high-flying fun and discover whose paper plane will soar the farthest!

PARTICIPATION CERTIFICATES WILL BE PROVIDED TO ALL PARTICIPANTS

REGISTRATION FEE: INR 49/- per head
