

FLIGHT-2022

MADRAS INSTITUTE OF TECHNOLOGY
DEPARTMENT OF AEROSPACE ENGINEERING
ASSOCIATION OF AERONAUTICAL ENGINEERS

JET ACOUSTICS

Event type : Seminar

Date: 14.05.2022

Time : 9:00 am - 10:30 am

Description :

Jet acoustics or jet noise has been an emerging field of study for the past 70 years. Be it subsonic, supersonic or hypersonic aircraft, researchers and engineers all over the world are aiming to reduce the noise produced from them and that is found to be associated with incredible advantages which we might be unaware of, as sound is not just something we hear; it's a pressure wave. **Prof. K. Srinivasan** from IIT MADRAS will be here with us during FLIGHT 2022 to amaze us and educate us with this interesting topic. He is an expertise in the field of Resonant Acoustics, Jet Noise, Active and Passive Control of Flow and Noise pollution mitigation who has more than 75 publications and several years of teaching experience. Grab this wonderful opportunity to attend his seminar.
