

## FLIGHT-2022

**MADRAS INSTITUTE OF TECHNOLOGY**

**DEPARTMENT OF AEROSPACE ENGINEERING**

**ASSOCIATION OF AERONAUTICAL ENGINEERS**

### **BOOMERANG**

#### **Introduction:**

It's fun to throw a boomerang just like Mowgli in Jungle Book did. The unique body and curves of a boomerang makes it the only projectile that can fly parallel to the ground and defy gravity.

#### **Description:**

Teams should make their own boomerangs using the kit provided by us and will contest with each other in projecting them across the course.

#### **Event format:**

- Consists of two rounds.
- The first round is a preliminary round where a written test on basics of flight will be conducted.
- Shortlisted candidates to the second and final round will be required to make their boomerang and fly it.
- Boomerang kit will be provided by us.
- The boomerang with the greatest range and best precision wins.

#### **Rules & guidelines:**

- Not a team event.
- Participants must bring their college ID cards without fail.
- Participants must bring their assembled boomerang to the venue for the final round.

**Contact:**

For any queries regarding the event, feel free to contact,

Name: Ashok Samrat R

Ph.no.: 9962130756
